

# **SAFETY DATA SHEET**

## Section 1. Identification

Trade name	: Extreme Tack
Product code	: 13000411
Date of issue/Date of revision	: 9/27/2017
Supplier	: Eclectic Products Inc. 1075 Arrowsmith Eugene, OR 97402 541-484-9621
Responsible name	: Regulatory Compliance
Emergency telephone number (with hours of operation)	: CALL INFOTRAC 800-535-5053 001-352-323-3500 24 hours per day, 7 days per week.

### Relevant identified uses of the substance or mixture and uses advised against

Glues, hobby use

## Section 2. Hazards identification

OSHA/HCS status	: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
Classification of the substance or mixture	: Not classified.
GHS label elements	
Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
General	<ul> <li>Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.</li> </ul>
Prevention	: Not applicable.
Response	: Not applicable.
Storage	: Not applicable.
Disposal	: Not applicable.
Hazards not otherwise classified	: None known.

## Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Ingredient name	%	CAS number
Propylene Glycol	1-5%	57-55-6

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Date of issue/Date of revision	: 9/27/2017

## Section 3. Composition/information on ingredients

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

Description of necess	sary first aid measures
Eye contact	<ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.</li> </ul>
Inhalation	<ul> <li>Remove person to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.</li> </ul>
Skin contact	<ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.</li> </ul>
Ingestion	: Wash out mouth with water. Remove person to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

### Most important symptoms/effects, acute and delayed

Potential acute health e	ffects
Eye contact	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Over-exposure signs/sy	<u>/mptoms</u>
Eye contact	: No specific data.
Inhalation	: No specific data.
Skin contact	: No specific data.
Ingestion	: No specific data.

Indication of immediate medical attention and special treatment needed, if necessary		
Notes to physician	Treat symptomatically. Contact poison treatment specialist immed quantities have been ingested or inhaled.	liately if large
Specific treatments	No specific treatment.	
Protection of first-aiders	No action shall be taken involving any personal risk or without suit	able training.

### See toxicological information (Section 11)

## Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide

## Section 5. Fire-fighting measures

Special protective actions for fire-fighters	<ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.</li> </ul>
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

# Section 6. Accidental release measures

Personal precautions, protect	<u>ve equ</u>	lipment and emergency procedures
For non-emergency personnel	Evac ente	nction shall be taken involving any personal risk or without suitable training. cuate surrounding areas. Keep unnecessary and unprotected personnel from ring. Do not touch or walk through spilled material. Put on appropriate personal ective equipment.
For emergency responders	in Śe	ecialised clothing is required to deal with the spillage, take note of any information ection 8 on suitable and unsuitable materials. See also the information in "For non-rgency personnel".
Environmental precautions	and	d dispersal of spilled material and runoff and contact with soil, waterways, drains sewers. Inform the relevant authorities if the product has caused environmental ition (sewers, waterways, soil or air).
Methods and materials for co	tainm	ent and cleaning up
Small spill	if wa place	leak if without risk. Move containers from spill area. Dilute with water and mop up ter-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and e in an appropriate waste disposal container. Dispose of via a licensed waste osal contractor.
Large spill	wate plan abso cont licen	leak if without risk. Move containers from spill area. Prevent entry into sewers, er courses, basements or confined areas. Wash spillages into an effluent treatment t or proceed as follows. Contain and collect spillage with non-combustible, orbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in ainer for disposal according to local regulations (see Section 13). Dispose of via a sed waste disposal contractor. Note: see Section 1 for emergency contact mation and Section 13 for waste disposal.

## Section 7. Handling and storage

### Precautions for safe handling

Protective measures	Put on appropriate personal protective equipment (see Section 8).	
Advice on general occupational hygiene	Eating, drinking and smoking should be prohibited in areas where this material handled, stored and processed. Workers should wash hands and face before drinking and smoking. Remove contaminated clothing and protective equipme entering eating areas. See also Section 8 for additional information on hygiene measures.	eating, ent before
Conditions for safe storage, including any incompatibilities	Store in accordance with local regulations. Store in original container protected direct sunlight in a dry, cool and well-ventilated area, away from incompatible r (see Section 10) and food and drink. Keep container tightly closed and sealed ready for use. Containers that have been opened must be carefully resealed a upright to prevent leakage. Do not store in unlabeled containers. Use appropri- containment to avoid environmental contamination.	naterials until and kept

## Section 8. Exposure controls/personal protection

### **Control parameters**

**Occupational exposure limits** 

Ingredient name	Exposure limits
Propylene Glycol	AIHA WEEL (United States, 10/2011). Notes: 2004 Revised Document TWA: 10 mg/mÂ <sup>3</sup> 8 hours.
Appropriate engineering controls	<ul> <li>Good general ventilation should be sufficient to control worker exposure to airborne contaminants.</li> </ul>
Environmental exposure controls	<ul> <li>Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.</li> </ul>
Individual protection me	easures
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Skin protection	
Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	<ul> <li>Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.</li> </ul>
Other skin protection	<ul> <li>Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.</li> </ul>
Respiratory protection	: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

## Section 9. Physical and chemical properties

<u>Appearance</u>	
Physical state	: Liquid. [Paste.]
Color	: Clear to Hazy
Odor	: Slight Ammonia.
рН	: 8.2 to 8.8
Boiling point	: >100°C (>212°F)
Flash point	: Closed cup: Not applicable. [ASTM D3828]
Flammability	: Not available.
Evaporation rate	: <1 (ether (anhydrous) = 1)
Lower and upper explosive (flammable) limits	: Not available.
Date of issue/Date of revision	: 9/27/2017

## Section 9. Physical and chemical properties

Vapor pressure	: Not available.
Vapor density	: >1 [Air = 1]
Specific gravity	: 1.02
Solubility	: Easily soluble in the following materials: water.
VOC (wt%)	: 3.28292%
Viscosity	: Not available.

## Section 10. Stability and reactivity

: No specific test data related to reactivity available for this product or its ingredients.
: The product is stable.
: Under normal conditions of storage and use, hazardous reactions will not occur.
: No specific data.
: No specific data.
: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

### Information on toxicological effects

### Acute toxicity

Product/ingredient name	Result	Species	Dose	Exposure
Propylene Glycol	LD50 Dermal LD50 Oral		20800 mg/kg 20 g/kg	-

### Irritation/Corrosion

Product/ingredient name	Result	Species	Score	Exposure	Observation
Propylene Glycol	Eyes - Mild irritant	Rabbit	-	24 hours 500 milligrams	-
	Eyes - Mild irritant	Rabbit	-	100 milligrams	-
	Skin - Moderate irritant	Child	-	96 hours 30 Percent continuous	-
	Skin - Mild irritant	Human	-	168 hours 500 milligrams	-
	Skin - Moderate irritant	Human	-	72 hours 104 milligrams	-
	Skin - Mild irritant	Woman	-	Intermittent 96 hours 30 Percent	-

### **Sensitization**

Not available.

### **Mutagenicity**

Not available.

#### **Carcinogenicity**

Not available.

### **Reproductive toxicity**

Not available.

### **Teratogenicity**

Date of issue/Date of revision

## Section 11. Toxicological information

#### Not available.

Specific ta	arget organ	toxicity	(single	exposure)

Not available.

### Specific target organ toxicity (repeated exposure)

Not available.

#### **Aspiration hazard**

Not available.

Information on the likely	: Routes of entry anticipated: Dermal, Inhalation.
routes of exposure	

### Potential chronic health effects

Not available.

General	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
<b>Developmental effects</b>	: No known significant effects or critical hazards.
Fertility effects	: No known significant effects or critical hazards.

### Numerical measures of toxicity

Acute toxicity estimates Not available.

## Section 12. Ecological information

<u>Toxicity</u>			
Product/ingredient name	Result	Species	Exposure
Propylene Glycol	Acute EC50 >1000 mg/l Fresh water Acute LC50 1020000 µg/l Fresh water	Daphnia - Daphnia magna Crustaceans - Ceriodaphnia dubia	48 hours 48 hours
	Acute LC50 710000 μg/l Fresh water	Fish - Pimephales promelas	96 hours

### Persistence and degradability

Not available.

**Other adverse effects** : No known significant effects or critical hazards.

## Section 13. Disposal considerations

Disposal methods	: The generation of waste should be avoided or minimized wherever possible. D of this product, solutions and any by-products should at all times comply with th requirements of environmental protection and waste disposal legislation and an regional local authority requirements. Dispose of surplus and non-recyclable pr via a licensed waste disposal contractor. Waste should not be disposed of untr the sewer unless fully compliant with the requirements of all authorities with jurit Waste packaging should be recycled. Incineration or landfill should only be cor when recycling is not feasible. This material and its container must be disposed	roducts reated to sdiction. nsidered
Date of issue/Date of revision	: 9/27/2017	6/8

## Section 13. Disposal considerations

safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

	DOT Classification	TDG Classification	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-	-
Transport hazard class (es)	-	-	-	-
Packing group	-	-	-	-
Environmental hazards	No.	No.	No.	No.
Additional information	Not available.	Not available.	-	Not available.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

## Section 15. Regulatory information

**U.S. Federal regulations** : United States inventory (TSCA 8b): All components are listed or exempted. SARA 311/312 Classification : Not applicable.

### California Prop. 65

WARNING: This product contains less than 0.1% of a chemical known to the State of California to cause cancer. WARNING: This product contains less than 1% of a chemical known to the State of California to cause birth defects or other reproductive harm.

Ingredient name Styrene Formaldehyde. ethylene oxide		<u>Cancer</u> Yes. Yes. Yes.	<mark>Reproductive</mark> No. No. Yes.
WHMIS (Canada)	: Not controlled unde	er WHMIS (Canada).	
Canada inventory	: All components are	listed or exempted.	
International regulations			
International lists	<ul> <li>Australia inventory (AICS): Not determined.</li> <li>China inventory (IECSC): Not determined.</li> <li>Japan inventory: Not determined.</li> <li>Korea inventory: Not determined.</li> <li>Malaysia Inventory (EHS Register): Not determined.</li> <li>New Zealand Inventory of Chemicals (NZIoC): Not determined.</li> <li>Philippines inventory (PICCS): Not determined.</li> <li>Taiwan inventory (CSNN): Not determined.</li> </ul>		
EU Inventory	: Not determined.		
Date of issue/Date of revision	: 9/27/2017		

## Section 16. Other information
