| Skin       | Wash with soap & water. Peel or roll skin apart to separate. Adhesive wears off of skin with water exposure.   |  |  |
| Eyes       | Immediately flush eyes with plenty of water for 15 minutes. Get immediate medical attention.<br>Water flushing aids in sloughing off adhesive over time.   |  |  |
| Ingestion  | Peel or roll skin apart. Adhesive becomes solid in contact with saliva & may adhere to inside of mouth. Saliva will lift adhesive in 1-2 days. Additional water exposure helps to speed up removal. Avoid swallowing solid adhesive after detachment. Not a toxic product. |  |  |
